

Dear neighbor,

As you may remember, after poor performance of the previous lake maintenance company, I changed back to the one who had originally been maintaining the lake, Aquatic Solutions, knowing they were more costly, but knowing from previous experience that they were reliable.

Since Aquatic took over, the lake has been “mostly” clear of algae except for a couple of recent months, when rainfall was minimal, and water temps high. During those periods, Aquatic was frequently treating the lake and kept the surfacing algae to a minimum.

As expected, the renewal contract includes an increase in monthly payment, increasing from \$197/month to \$210/month. Considering my previous experience attempting to find a replacement company that would be less expensive, I believe that staying with Aquatic is our best choice.

As you are aware, the beauty of the lake can quickly change. Should we drop monthly maintenance, It would likely be just weeks before the entire lake would be covered in algae, followed by foul odors from decomposing algae and water-life.

Remember that us property owners are responsible for the lake, not the city nor county...we do not officially own the property, nor pay taxes on it, but effectively assume ownership by default (dotted lines on the county property plot). With that said, this also means that you can legally have someone removed from the property where it meets the water as it is not public property, despite what some fisherman believe.

If you are not the property owner, please consider speaking to your property management/landlord suggesting that they participate, and please forward this letter. For those who do not contribute, the rest of us have been having to make up those contributions and now that this price has increased, I sincerely hope that you reconsider and offer what ever financial help that you can. If you simply cannot afford the full amount (see back side), partial help is welcome as well.

Thank you in advance for your cooperation and feel free to contact me with any comments and/or questions. Also, for those of you with Internet access, I have created a website which contains a variety of information, and frequently asked questions about our lake. Visit it at:

YES, I want to continue / begin my assistance with the yearly "Lake Maintenance Contract" in order to continue the beauty of my surrounding property. I am enclosing my contribution of \$210.00. I understand that if all collected money is over the amount needed to cover the yearly contract price, the excess will be returned to all those who have contributed.

YES, however I cannot afford it at this time. I will contribute as much as I can at a later date.

NO, I do not care to join the others in keeping our lake clean and beautiful.

Since Aquatic took over, the lake has been “mostly” clear of algae except for a couple of recent months, when rainfall was minimal, and water temps high. During those periods, Aquatic was frequently treating the lake and kept the surfacing algae to a minimum.

As expected, the renewal contract includes an increase in monthly payment, increasing from \$197/month to \$210/month. Considering my previous experience attempting to find a replacement company that would be less expensive, I believe that staying with Aquatic is our best choice.

As you are aware, the beauty of the lake can quickly change. Should we drop monthly maintenance, It would likely be just weeks before the entire lake would be covered in algae, followed by foul odors from decomposing algae and water-life.

Remember that us property owners are responsible for the lake, not the city nor county...we do not officially own the property, nor pay taxes on it, but effectively assume ownership by default (dotted lines on the county property plot). With that said, this also means that you can legally have someone removed from the property where it meets the water as it is not public property, despite what some fisherman believe.

If you are not the property owner, please consider speaking to your property management/landlord suggesting that they participate, and please forward this letter. For those who do not contribute, the rest of us have been having to make up those contributions and now that this price has increased, I sincerely hope that you reconsider and offer what ever financial help that you can. If you simply cannot afford the full amount (see back side), partial help is welcome as well.

Thank you in advance for your cooperation and feel free to contact me with any comments and/or questions. Also, for those of you with Internet access, I have created a website which contains a variety of information, and frequently asked questions about our lake. Visit it at:

YES, I want to continue / begin my assistance with the yearly "Lake Maintenance Contract" in order to continue the beauty of my surrounding property. I am enclosing my contribution of \$210.00. I understand that if all collected money is over the amount needed to cover the yearly contract price, the excess will be returned to all those who have contributed.

YES, however I cannot afford it at this time. I will contribute as much as I can at a later date.

NO, I do not care to join the others in keeping our lake clean and beautiful.

On behalf of all those who have been so proactive on keeping our lake clean, I wish to thank you all for your support and contributions. . Kurt M. Klotz

Dear neighbor,

As you may remember, after poor performance of the previous lake maintenance company, I changed back to the one who had originally been maintaining the lake, Aquatic Solutions, knowing they were more costly, but knowing from previous experience that they were reliable.

Since Aquatic took over, the lake has been “mostly” clear of algae except for a couple of recent months, when rainfall was minimal, and water temps high. During those periods, Aquatic was frequently treating the lake and kept the surfacing algae to a minimum.

As expected, the renewal contract includes an increase in monthly payment, increasing from \$197/month to \$210/month. Considering my previous experience attempting to find a replacement company that would be less expensive, I believe that staying with Aquatic is our best choice.
